

BOYS & GIRLS CLUB OF SAN DIEGUITO

The Challenge:

“With electricity being one of our largest expenditures, the solar system will save us money—helping us keep the doors open—serving more than 6,000 registered members,” said CEO Marineke Vandervort. “We want to lead by example. Adding solar demonstrates our investment in eco-technology—reducing our environmental footprint while educating our members about the benefits of renewable energy.”

The Solution:

Boys & Girls Club of San Dieguito’s use of creative financing using a 25-year Power Purchase Agreement (PPA). The PPA required no capital
