GROSSMONT UNION HIGH SCHOOL DISTRICT

Three photovoltaic systems installed at Steele Canyon High School, Granite Hills High School, and Helix High School. The three systems together will produce nearly 5 million kWh of energy per year. These projects were developed utilizing a combination of carport and ground mounted solar arrays. Each of the solar arrays provides enough electricity to offset 95% of each school's energy needs on an annual basis.

Project Specs

Location : San Diego CA

System Size 3.291MW

Number of Panels 7819

Annual Energy Cost Savings 95% of Energy Costs
